REV. E. F. KEMP IS INDUCTED IN IRMA UNITED CHURCH

The Rev. E. F. Kemp was inducted into the pastorate of Irma charge of the United church on Friday evening last, in the presence of a representative congregation. Rev. R. W. Griffith of Jarow was the presiding minister, assisted by Rev. T. E. Armstrong of Wainwright and the Rev. Wesley Bainbridge of Edgerton, the former giving the address to the minister and the latter the address to the congregation. Mr. Armstrong drew pointed attention to the responsibilities resting upon the Christian minister, as a priest, a prophet and a pastor, and urged the newly appointed minister to be diligent and faithful in all these. Mr. Bainbridge in a persuasive address, advised the congregation to be regular and punctual in their attendance at church; to go in a spirit of expectation; and to encourage their minister by such appreciation as they could sincerely give.

The Rev. R. W. Griffith conducted the induction ceremony; and at his invitation the congregation received Mr. Kemp as their pastor by a standing vote. After the usual questions had been asked and answered, Mr. Griffith, in the name of the Wainwright Presbytery, extended the right hand of fellowship to Mr. Kemp, led him to his place in the pulpit, and with a few generous introductory remarks of a personal nature, called upon him to address the congregation. Mr. Kemp said he realized that the present service would have a far-reaching effect on their fellowship if both he and the congregation did their best to make an effective response to the excellent advice which had been given them by the two speakers. He promised to do his best—not to run the church himself—but to work with them and for them in the service of the Master. He made an urgent plea for the expression of an active goodwill on both sides, and the avoidance of all that makes for dissension and strife.

After the service a social hour was

LEGION SPORTS

The Legion sports was one continuous ball game when it did start. Irma juniors vs. Hardisty juniors were first at it and were badly defeated by the Hardisty boys by a large score. Lack of team work and practice were shown badly needed by the home team. North Stars and Camp Lake were next in line and in a seven inning game the Stars were victorious in a one-sided game, with Lefty Lukens steady pitching and good support. Rocky Ford and a pick-up Irma team tried out for seven innings. These teams were evenly matched and resulted in a 5 to 2 score for Rocky Ford. Louie Vorse pitched fine ball for the winning team. The softball game, Viking girls vs. a team from Rosyth district, was won by the latter team by a large score. The winners then played the Irma girls and were defeated by them in a close game—score 23-16. The Rosyth girls were sluggers and ran bases wild for a while. This game was called before the nine innings were played as the final senior team had to have the diamond. This game went the nine innings between Red Stars and Rocky Ford. Edgar started in the box for Stars and was touched up for seven runs in the first two innings, giving way to F. Lukins who held them down in the other innings. Louie Vorse started for Rocky Ford but was soon knocked out of box. Arid was no better, so Metz was called in and held the Stars down the rest of the game, ending 16 to 8 in favor of Red Stars. L. Gultner did a good job refereeing all four games.

For Job Printing see E. W. Carter.

spent, during which Mr. and Mrs. Kemp and family met the friends present. Lunch was provided by the ladies of the church. The impressive service and the friendly gathering which followed gave evidence of a healthy church fellowship and the promise of good things to come under the Providence of God.

BRUCE STAMPEDE AND SPORTS JULY 24

Henry Owens, secretary of Bruce stampede association was in town on Monday and among other things announced that the annual stampede and sports will be held this year on Wednesday, July 24th.

It is needless to go to any detail in telling about the Bruce Stampede. It has been considered the biggest of its kind in this neck of the woods for the past umpteen years, and the only stampede that draws as well as the Calgary rodeo.

An added attraction this year is the engagement of the Viking school band of 42 pieces to play during the afternoon. The association has made no mistake in getting this band to the past umpteen years, and the only stampede that draws as well as the Calgary rodeo.

A big dance after a dandy picture show will top off a long program of stampede events that you should not miss. It's going to be bigger and lots better, says the genial Henry.

ANNUAL FIELD DAY AT BALL'S PLACE

Sedgewick's Agricultural Society
Event Coming July 31

Sedgewick, July 6.—Sedgewick Agricultural society will sponsor their fifth annual agricultural field day on Charles Ball's farm south of town, Wednesday, July 31. A good program has been secured including both business and social numbers.

In addition to demonstrations both in the field and with livestock, there will be a practical demonstration showing just how the final grade of grain is obtained at the terminal elevators, poultry culling, egg grading and candling also will be demonstrated.

Lectures and addresses by prominent men, both from the provincial and dominion departments of agriculture will be given.

E. S. Clemens is mailing programs to all who desire them.

FOUND—Between Irma and Albert Knudson's home, a mackinaw coat. Owner may have same by proving property and paying for this advt.

McPHERSON IS HOWLED DOWN IN HOME TOWN

Lethbridge, July 6.—Former minister of public works and United Farmers of Alberta candidate in the Little Bow constituency in the coming provincial general election, O. L. McPherson, sitting member for Little Bow in the legislature, was shouted down by a crowd attending a meeting called at Vulcan on Friday by Wm. Aberhart's social creditors.

Following the Aberhart dissertation the former minister submitted a number of questions but was met by noisy interruptions from the crowd of 2,000.

Mr. McPherson was determined and kept pressing his questions.

Finally Mr. Aberhart appealed to his supporters and asked "Are you going to let this man cross-examine me?"

Apparently cross-examination was not desired and the crowd shouted "No," and with the place in a state of commotion, Mr. McPherson retired.

Minutes of Meeting of M. D. Kinsella No. 424

Meeting held at Kinsella, at 10 a.m. Monday, July 8th, 1935.

Full Council present.

Cr. Albrecht—that minutes be passed as read. C.U.

Cr. Bowden—that statement of receipts and expenditures be passed as read. C.U.

Cr. Murray—that applications for consolidation as read be accepted. C. Cr. Bradley—that the matter of renting S.E. 10-46-10, 4th be left in the hands of Cr. Overbo. C.U.

Cr. Albrecht—that the matter of grant to S. Army be tabled. C.U.

Cr. Bowden—that the gov't. grant of \$800 be distributed as follows: No. 1, \$200; 2, \$80; 3, \$80; 4, \$240; 5, \$160; 6, \$10. C.U.

Cr. Bradley—that the S.E. 35-46-12, 4th be leased with option to purchase to J. L. MacPherson on the following terms: Lease to be for three years; rent of same \$10 per annum; all taxes for the three years to be paid by lessee; terms of option \$800. C.U.

The following correspondence was read and tabled for action of secretary: Soil drifting from Dept.; Lefsrud, re Overbo; Thompson re Holcroft; Sunlight S.D.; Royal Alex. hospital re Ole Ness; Dr. Conn re Mrs. Long; Dept. Mun. Affairs re selling of land and option re Mrs. Christensen; Old Age Pension, etc.

Cr. Bradley—that Council confirm secretary's letter to S. Lefsrud re Miss P. Overbo, deceased.

Cr. Bowden—that the following bills be passed for payment: C.U. Relief, re Holcroft \$ 2.09
Sunlight S. D. 100.00
R. R. Machinery Co., Div. 4 20.15
Div. 5 22.95
Kings Printer 90
Fox & Johnson 20.13
A. M. Stationers 17.10
F.W. Clark, stationery 57.54
Express paid 90
J. Marshall, Smutz 9.15
M. Allowance Act 12.50
Road Sheet, Div. 5 111.55
Cr. Lisson—that meeting adjourn till August 12, at 10 a.m., at Kinsella. C.U.

To Charles Montgomery, one-time switch-tender and at present elevator operator at the Canadian Pacific uptown office building in Winnipeg, go all honors for having constructed what is probably the most perfectly finished model of a locomotive on the continent. It is a five-foot replica of a Canadian Pacific class "2300", finished in brass and copper, and took five years to construct.

Out of active service for some years past, Canadian Pacific liner Melita, has been sold to Italian shipbreakers. She was built in Glasgow in 1913.

"Never betray a trust; be honest; do what other men can do; and work your eight hours a day," is the motto for success enunciated by Caleb R. Smith, international chairman of the Million-Dollar Round Table, speaking to the Life Underwriters in convention at the Royal York Hotel, Toronto, recently.

James G. Miller, Medicine Hat, veteran Canadian Pacific engineer, recently celebrated his 62nd birthday, when railway acquaintances and relatives gathered to congratulate him. He was born in Drummondville, Que., and has been driving a railroad cheque for more than 64 years.

NOTES OF INTEREST OF BUSY KINSELLA

Mr. Sheppy was a visitor in Calgary the first of the week.

Mr. D. Corbett was in the city one day last week.

Mr. Wittan made a business trip to Edmonton and Rimbly last week.

Kathrine Elliott of Edmonton is spending a few weeks at the home of her grandparents, Mr. and Mrs. J. L. Scott.

Mr. Sheppey and Mr. B. Davis were in Three Hills on Friday.

Miss Laura Mark was visiting in Calgary last week.

Mr. Eddie Jewel was in the city on Thursday.

Mr. and Mrs. M. Lockhart of Edson spent last week at the home of Mr. and Mrs. C. F. Arkenstall.

The Board of the United church held a meeting on Wednesday night to arrange for re-decorating the church. Mr. Johnson, who has just finished the new school-house, was given the work.

Mrs. E. Mark and Miss Laura were visiting last Thursday.

Donald Witton of Edmonton is visiting his father for the holidays.

Mrs. J. Neale and children are spending their holidays with friends at Vermilion.

Mrs. F. Murray was visiting in the city last week.

Miss Edith Watson has been engaged to teach at the Ross school, north of Irma, for the coming year.

We are glad to report that Mrs. Carpenter, who has been sick the past fortnight, is some better at this time.

Mrs. W. Ferries was in Edmonton Wednesday, July 3rd, where she attended the wedding of her niece, Miss Jean Ferries. Miss Ferries is well known here, having spent some time visiting in the district.

AVONGLEN NEWS.

Mr. Savard and Mr. S. M. New are busy grading a portion of the road from Crescent Hill north to the town site line. We appreciate the efforts of our Councillor, Mr. Burton, in putting this road in first class shape, enabling people from the north to connect up with the new highway at Crescent Hill.

The North Irma Telephone Co. have had the bush cut along the line in this district and the line checked over. This puts the phones in working order again. This company is giving 100 per cent service to its members.

A few more showers like the ones during the past week will bring the crops up to average in this district.

Mr. and Mrs. L. Myres were visitors at the C. Riddell home during the week-end.

The Glendale Club met at the home of Mrs. S. New on the afternoon of July 5th. Although bad roads and inclement weather interfered with the attendance somewhat, the club was near full-strength, also adding one new member to its roll. The meeting opened by singing My Old Kentucky Home. The Roll call was answered by a favorite flower. A reading on First Aid in the Home by Mrs. New emphasized the fact that our homes need a careful study of the subject to enable us to cope with the number of different cases that may occur. A song by Irene Lambert and a reading by Mrs. Whiteley were much enjoyed. A contest by Mrs. Hudson on prominent people was won by Mrs. Whiteley and a raffle by Mrs. New was won by Mrs. Hudson. The meeting closed by singing Rock of Ages, after which a delicious lunch was served by the hostess. The next meeting will be held at the home of Mrs. G. M. Whiteley on August 1st.

Mr. James Craig started a new house for Mrs. Arnold last week on the S.W. of 4. This improvement will be greatly appreciated by Mr. and Mrs. Myres and family.

Mr. Frank Ford moved home Mr. Scheik's drilling outfit the end of the week, and expects to put down a well in the near future.

Mrs. Gordon Radmore visited at the home of her parents, Mr. and Mrs. H. Hudson, Saturday afternoon.

Women's Institute Column

A baby clinic was held in Irma on the afternoon of Friday, June 21st, under the auspices of the Irma W.I. Thirty-three children were examined—15 babies and 18 pre-school children. The majority were in perfect condition, only two being referred to the doctor.

The July meeting of the Irma W.I. was held at the home of Mrs. Howard Peterson on Thursday, July 4th. As this was grandmothers' day, there were quite a lot of visitors from our own district besides two cars from Viking and one from Kinsella; there were over 60 in all, including children. A very happy afternoon was spent in music, songs and readings to honor the grandmothers present. A group photo of the grandmothers was taken on the lawn, after which a dainty lunch was served by the hostesses. The next meeting will be held on Thursday, August 1st, at the home of Mrs. R. L. Eaton, C.N.R. pump house, on the S.E. 14-45-8 on the banks of the Battle River, E. Q. Hawkins station.

TESTED RECIPES.

Apricot Slices

1 cup flour, 2 tablespoons sugar, 1 egg, 2 tablespoons shortening, 2 teaspoons baking powder, 1/2 teaspoon vanilla, 1/2 teaspoon salt. Mix flour, baking powder, salt and sugar. Cut in shortening, beat egg with milk, and add vanilla, then add to flour mixture. Put in greased pie tin. Cover dough with generous layer of stewed apricots. Bake in moderate oven. While hot cover with icing sugar, sprinkle with nuts and cut in slices. Good with whipped cream.

Cocanut Spread

3/4 cup butter, 1 egg yolk, 2 tablespoons sugar, 1/2 teaspoon baking powder, 1 tablespoon milk; roll this out and place in baking pan; then spread over with raspberry jam fruit and then with mixture of 2 cups cocoanuts, 1 egg yolk, 1 cup sugar, butter the size of an egg, vanilla and the two egg whites; cut in squares when cold.

Scalloped Rice and Tomatoes

Boil cup rice. Put half of it in a buttered casserole, cover with half of tomatoes used, peeled and cut in halves. Sprinkle with salt and pepper, cover with rest of the rice and tomatoes and pour over them 1 cup of cheese sauce; cover and cook 20 minutes, then remove the cover to brown slightly.

Ladies' Aid Meet

The regular meeting of the ladies' aid was held on Tuesday of this week instead of Thursday, at the home of Mrs. Martin Knudson.

In the absence of the president and first vice-president, Mrs. Fenton took the chair.

Mrs. Loche led devotionals and as her subject chose I Sam. 16:7.

The minutes were read and adopted and the treasurer reported a balance of \$9.97.

Final arrangements were made for the lawn social to be held at the home of Mr. and Mrs. Ernest Simmons on July 17th.

Mrs. Maguire gave a delightful and interesting paper on "Confederation".

We were glad to welcome some of our Coast Springs friends who were present.

The meeting closed with all present repeating the Lord's Prayer.

FLOUR

An Opportunity to Buy Flour At a Saving!

ROYAL HOUSEHOLD, 98s. \$2.80
Ogilvie's Glenora, 98s. 2.50

The Glenora is a high quality second grade flour put out by the Royal Household, and the difference between the two grades is a slightly darker loaf—but hardly noticeable.

PHONE 13

The cost of living, which reached its peak in 1920, has declined; but on the 1913 basis it is still much higher than the price of gasoline. In 1934 the cost of living was 20.7 per cent higher but the price of gasoline was 28.4 per cent lower than in 1913. The data for this graph are based on figures published by the Dominion Bureau of Statistics.

LIVING COSTS MORE BUT GASOLINE COSTS LESS

THE cost of living in Canada in 1934 was approximately 21 per cent higher and the price of gasoline 28 per cent lower than in 1913. The price of gasoline never rose as high a peak as did the cost of living. Since 1920 gasoline prices have declined almost continuously to the present low level.

Imperial Oil has always sought for economical ways of doing business and has always passed on to the consumer the benefits of such economies. Imperial Oil operates on a very small profit and in 1934 earned an average of slightly more than one-half of one cent per gallon on gasoline.

Not only is gasoline cheaper than ever—it is better than ever. Imperial Oil research laboratories played a leading part in developing fuels for modern motors. Imperial gasoline of 1935 is a far better gasoline than that of 1913 yet it sells at a price considerably lower.

IMPERIAL OIL LIMITED

HOW TO MAKE ICED TEA

Infuse six heaping teaspoons of Salada Black Tea in a pint of fresh boiling water. After six minutes strain liquid into two-quart container. While hot, add 1½ cups of granulated sugar and the juice of 2 lemons. Stir well until sugar is dissolved; fill container with cold water. Do not allow tea to cool before adding the cold water; otherwise liquid will become cloudy. Serve with chilled ice.

"SALADA" ICED TEA

Protect Wild Life

This is an age of organization. Men and women, boys and girls, band themselves together in clubs, associations, unions, large or small, some single isolated groups, others as branches of a Provincial, Dominion, or international body. There are clubs to promote almost every conceivable thing, or object, in which mankind can possibly be interested. Their number is legion, and new organizations spring into existence almost every week.

Many organizations have been in existence for a long time, have large memberships, and very definite objects to serve. They have long occupied a useful and honorable place in our democracy, command the respect of all, and have made worthwhile contributions to society as a whole. Members of such bodies are banded together, as a rule, in support of some great principle to which they are intensely devoted.

There are other organizations which come into being under the stress of temporarily prevailing conditions, and when those conditions change and pass away, these organizations pass out of existence, some having exerted a beneficial influence in the direction of reform and progress; others leaving little but a trail of disillusionment and loss behind them.

It would be impossible to even list, let alone classify, the organizations now in existence making appeal for the support of the public, and it is not the intention of this article to make any such attempt. Rather at this time it is proposed to direct attention to one particular organization, to which no great publicity has been given in past years, but which has been engaged in quietly, but none the less effectively, promoting a cause in which the people of Canada ought to take a very keen and active interest. On former occasions the attention of readers of this column has been drawn to other worthwhile organizations, consequently in now singling out one specific organization for a word of commendation we are making no new departure.

The organization now referred to—possibly we should refer to it in the plural and say organizations—are the Fish and Game clubs or leagues of the various provinces. These organizations are province-wide, not confined to sportsmen alone, but wide open to the naturalist and all lovers of wild life, whether they hunt with a gun or a camera or the notebook of the scientist, for, in the final analysis, the interests of these are common to all.

The objects of these organizations are to promote wild life research; by an educational campaign to instill into the minds of people the cardinal rules and laws of nature and the necessity of giving to nature the assistance of the human element, where necessary, in order that the happiness which comes from plenty can continue to exist; to secure the passage of the necessary laws to prevent extinction of declining species and to ensure the rigid observance of those laws; to endeavor to maintain the necessary surface water supply, natural cover, trees and food conducive to a bountiful supply of useful wild life, and to control or eliminate those of its enemies which threaten its continued existence.

From this abbreviated outline of objects it will be seen that, in promoting them, these organizations are likewise promoting the welfare of all, irrespective of whether they are directly interested in the preservation of wild bird and animal life or not. For example, agriculturists and livestock men, in recent years, have seen the wisdom and necessity of conserving surface water supplies brought close home to them. Equally so, is the wisdom and necessity of protecting trees from wholesale destruction in order that one of the main sources of surface water supplies should not likewise be destroyed.

As a people we have devoted far too little thought and study to the many forces and factors nicely balanced by nature to make this world a habitable, productive and beautiful land, and we have proceeded in our ignorance to do many things which have worked to our own injury with dire results and at a tremendous cost and enormous loss to ourselves and our country. We must work with nature with knowledge and understanding, not in direct opposition to nature, if we are to survive and prosper.

Apart, therefore from the attractiveness which an abundance and great variety of wild animal, bird and fish life gives to any country, the natural conditions which make such wild life possible are likewise the conditions which give beauty to a country and provide what may be regarded as the basic foundation upon which the productivity of the land rests, for without water and natural shelter the land would become a desert.

For these reasons, among others, Canadians should support organizations like the Fish and Game Clubs, if not by enrolment as active members therein, at least by extending their sympathy, support, and co-operation in achieving the objects for which such organizations exist. In a word, every Canadian should be a protector of Canada's wild life, and alert and ready to assist in maintaining those natural conditions which alone make wild life possible.

Must Import Grain

Manchuria Will Require Extra Supplies To Feed Populace

For the first time in many years, Manchuria will, this year, have to import grain in order to keep its own 30,000,000 people fed.

Because of lack of rain, it is feared that this year's crops of millet and other grains will be a failure, except in favored districts, and already the government of Manchuria has made arrangements to import 50,000 tons of rice from Saigon, Rangoon and Bangkok. Additional large purchases are contemplated.

The people of Manchuria are not rice eaters, like the Chinese farther south. They subsist normally upon mostly millet and kaoliang, a species of maize.

Shorter Men For Army

British Regulations Fix Minimum Height For Infantry At Five Feet, Two Inches

The British army is to be shorter. Recruiting regulations issued recently fix the minimum height for infantry at five feet two inches. This is two inches below the old minimum. Cavalry of the line, tank corps, Royal Engineers, army ordnance corps may all accept recruits one inch below the minimum previously stipulated, provided they are otherwise fit.

The war office is determined, in view of the dearth of recruits, to bring the army up to full establishment.

The larger a bird, happens to be, the longer its life span.

Latest Method Detects

Fingerprints On Cloth

Will Preserve Them Indefinitely After They Are Found

A new technique capable of developing fingerprints left on cloth—such as a snapshot negative is developed—has been added to the New York police department's bag of tricks.

The method, an indirect product of the Hauptmann case, includes the important accomplishment of preserving the original prints after they are found. Chemical baths bring out and fix the prints.

Shortly after the Lindbergh baby was kidnapped, Dr. Erasmus M. Hudson, a specialist in body chemistry who makes fingerprints a hobby, was called to Hopewell, N.J., to examine the ladder used in the crime.

Using an iodine gas process, he found 500 prints where police had found none with the old powder-dusting method. Incidentally, none of the prints was identified. Dr. Hudson was invited to direct the New York police department's crime-fighting research in this field. The successful use of silver nitrate solutions on bleached linen and other cloths of light shade, and calcium sulphide on darker fabrics, followed.

The treatment brings chemical transformation of body salts in the wax of which fingerprints are made, causing the tiny lines to become apparent to the eye. The prints may be several years old.

The new technique is superior to the currently widespread method of dusting suspected surfaces with colored powder, it was said, because the powder-dusting is effective only when the wax is fresh.

Strange Inventions

Weird Array Of Gadgets At Chicago Congress

Termed by their own president as "nuts", the gadgeteers of the 14th annual national inventors congress brought to Chicago a strange array of thingamajigs, hotnannies and doodads.

Among things which attracted spectators who viewed the exhibits of 700 inventors and 3,500 model-makers and distributors were "lullaby bassinet," a pneumatic ladder, and a hen's nest which separates layers from liars.

If biddy lays an egg she automatically releases a latch which allows her to stroll out into the yard where the layers frolic. No eggs? The only door open to biddy is the one which permits her to enter another yard which big, bad men come to gather chickens for market.

"Many inventors are nuts, as I am," said Albert G. Burns, of Oakland, Cal., president of the congress. "But don't forget it's the nuts who generate ideas which develop into inventions."

In the home life sector also was the "lullaby bassinet" which, at the turn of an electric switch, provides remote control rocking for baby.

Grading Garnet Wheat

To Indemnify Grain Elevators For Loss Sustained

An appropriation of \$1,500,000 appeared in supplementary estimates tabled in the House of Commons, to indemnify grain elevators which may suffer loss through the separate grading of Garnet wheat. The change in grading is to come into force on August 1, 1935, and the regulation was effected in an amendment to the Canada Grain Act passed last year.

Supplementary estimates amounting to \$16,362,978 were introduced by Finance Minister E. N. Rhodes. Outside of additional appropriations for public works, the department securing the largest votes is national defence, for which more than \$5,000,000 is asked.

Battles With Reptile

Noted Traveller Seizes Fine Specimen Of King Cobra

Lawrence T. Griswold, noted anthropologist who has headed a number of expeditions for the Smithsonian Institute and National Zoological Park of Washington, D.C., arrived at Victoria recently with a fine specimen of the king cobra, which, he said, nearly took his life.

One night in the Philippine Islands Griswold awakened suddenly to find the giant cobra ready to strike. He diverted its attention by throwing a blanket and then with other members of the party killed it. The reptile measured better than 10 feet in length.

Cummings museum, London, contains an elaborate display of witches' remedies collected from Londoners in the last few years.

Airport Now Obsolete

Thousands Of Dollars Being Spent On Alterations At Croydon

Improvements and extensions costing thousands of dollars are being made to Croydon Aerodrome to cope with the growth in air traffic.

When Croydon was equipped as a main airport at a cost of \$1,500,000 in 1928, it was considered adequate for all London's air services for many years to come.

Since then passenger and goods traffic has increased by over 300 per cent, and air lines radiate to all parts of Europe, the Empire and South America.

In seven years the airport has become too small for its job, although nearly all the home airlines have been transferred to Heston and Essex airports.

The layout of the buildings is to be altered and extended to speed up the examination of baggage and passports. Passengers who have flown from Paris in one and a half hours are sometimes held up for 20 minutes for this inspection.

When the alterations are completed in two months passports will be inspected while baggage is unloaded from the aircraft.

Methods of simplifying the loading and unloading of baggage to and from motor coaches will be used.

An Interesting Exhibit

Development Of Transportation Shown In Many Working Models

From a chariot of ancient Rome, the development, up to the present day, of transportation on land, on sea and in the air, was depicted in a transportation exposition at Saint John, N.B.

Hundreds of working models showed the growth of all means of transportation from the crude vehicle of long-ago to the vastly improved and more beautiful machines of to-day.

A feature of the indoor exhibit was a miniature display of Saint John river and part of the harbor with tiny ships anchored within, and a group of 74 pictures of sailing vessels famous in the early days of Saint John.

At Union station the latest steam locomotives were on exhibition in their "Sunday best," while at Saint John airport a fleet of Canada's speediest and most up-to-date aeroplanes was shown.

South Pole Tourist Trade

May Be Winter Sports Playground For Australians In Future

The South Pole, or rather the great ice barrier 700 miles this side of it, is envisioned as the winter sports playground of Australians of the future.

The pole is about 3,100 miles from Melbourne and the barrier 2,400 miles. The imaginative with an eye on the development of safe long-distance air travel, see the tourist of the coming day indulging in snow sports under the shadow of the active volcanoes of Erebus and Terror hunting seal, catching penguins, going kayaking among the bergs and making short morning sled trips "into the blue."

Sir Douglas Mawson, Australian polar explorer, especially has been sketching prospects for development of the Antarctic, including possibilities of initiating a seal fur trade, canning of penguin eggs and the opening of a winter sports ground.

Glider Picked Up Wireless

Wireless messages were received in a glider over Dunstable in mail week for the first time in England. Mr. C. E. Collins, who holds the British distance gliding record, made the experiment, and he said afterwards that it was highly satisfactory.

"Solomon," said Mr. Isaacs to his son. "I have decided to insure your life."

Solomon looked up piteously. "Fadder," he said, "vy must I burn."

BACKACHE

IF you have backache, dizzy spells, headaches, do not neglect your kidneys. Take GIN PILLS for prompt relief at the first sign of these symptoms. You will feel better, look better—be better, if your kidneys are functioning properly.

GIN PILLS FOR THE KIDNEYS

BIG size
BIG value
BIG satisfaction

BIG BEN

THE PERFECT Chewing Tobacco

Wants Damages

Moose Smashes Automobile And Owner Wants Ontario Government To Pay

Last fall a bull moose ran into his automobile and went off with the radiator shell and a headlight rim, and now Arney Gravelle, of Naabinsing, wants the Ontario government to pay for it. He has made formal claim to the department of game and fisheries.

Gravelle said he and a companion were driving a car filled with blankets into a new lumber camp in the Glendale Crown game reserve, north of Sault Ste. Marie, Ont.

A turn in the road brought them face to face with the bull moose. As the car went forward the moose attacked. The first smash sent the license plate into the bush. The second swipe took off the radiator shell and half a fender. Gravelle and his companion were frantic as they tried to hold their seats in the car.

Will Is Read Yearly

Has Claimed Public Attention Since Probation In 1873

There are doubtless older testaments in the vaults of the Registrar's Office, London, but none which so periodically claims public attention as that of Henry Cloker, probated in 1873, which must be read at Wren Church of St. Magnus the Martyr, Lower Thames Street, whenever a descendant of one of the original beneficiaries wishes to dispose of the property inherited. In the very nature of things the petitions for reading have become more numerous as time has passed, so that one reading a year takes place, and at every reading, according to the terms of the will, the executors, the Worshipful Company of Coopers, and the Master and Wardens must put in an attendance.

Aerial Photography

New Camera To Take Panoramic Views From The Air

An invention which may revolutionize aerial photography has been perfected by an optical firm in Germany, it was announced.

The new camera, designed to take panoramic views from the air, is equipped with eight lenses whose combined range embraces the entire terrain at all points of the compass. At an altitude of 15,000 feet it is possible to photograph an area of 220 square miles, the manufacturers claimed.

Named By Roosevelt

It was President Roosevelt who first designated it as the White House on his official stationery. T. R. pointed out that nearly every State had an executive mansion (by which term the White House had been previously known) and that the President's home should bear a more distinctive name.

Used For Centuries

The Mohammedan lunar year of 354 days is a creation which corresponds to nothing in nature, says an Egyptologist, yet this lipping calendar system has been used for 1,513 years—or, as a Mohammedan would count it, 1,364 years.

Work Is Recognized

Two Westerners Honored At Meeting Of Canadian Seed Growers' Association

As recognition of their outstanding work as seed producers, R. D. Kirkham, Saltcoats, Sask., and W. D. Lang, Cawston, B.C., were made honorary life members of the Canadian Seed Growers' Association, in convention at Edmonton. Further honor was conferred when the two growers were made "Robertson associates" of the organization, a distinction commemorative of Jas. W. Robertson, former Dominion agricultural commissioner.

Mr. Lang has been active in the association for 19 years and Mr. Kirkham for 20 years, during which time the latter has done important work in the purification of Marquis wheat. Bronze medals will be presented later.

May Take Pets On Train

New Rules For Passengers Using Sleeping Car Drawing Rooms Or Compartments

Animal lovers may take their pets with them, and not leave them at home or crate them when travelling on trains, it was learned.

The Canadian National Railways, the Canadian Pacific and the Pullman Company announced patrons of sleeping car drawing rooms or compartments might take with them, dogs, cats or small animals, or birds as long as they were not vicious or objectionable. But they must be in suitable containers.

The privilege does not apply to passengers occupying space in the body of the car, and the pets will not be allowed outside of their masters' rooms.

Had To Think Quickly

A barrister who was sometimes forgetful, having been engaged to plead the cause of an offender, began by saying: "I know the prisoner at the bar, and he bears the character of being a most consummate and impudent scoundrel."

Here somebody whispered to him that the prisoner was his client, whereupon he continued: "But what great and good man ever lived who was not calamitated by many of his contemporaries?"

The song sparrow has about 2,500 feathers.

WORRIED ABOUT YOUR HEALTH?

Let SASKASAL regain and maintain it

Nature gives to Canada in magnificent abundance the natural Mineral Salts found in Little Manitou. These health-giving Salts are recovered and refined by expert Chemists in the form of SASKASAL Salts.

Thus SASKASAL in turn gives to Canadians in simple form—easy and pleasant to take—the cleansing, purifying, revivifying product of Nature itself. That is the simple story of SASKASAL Salts, so valuable to you in regaining your lost health and maintaining it in joyous vigor. If you suffer from Constipation, Indigestion, Rheumatism, Kidney or Liver troubles—take SASKASAL Salts. At all Drug Stores—69c.

SYNOPSIS

Nancy Nelson is a sub-deb, a gay, irresponsible girl of nineteen, with no care beyond the choice of her costume for her coming-out party. Suddenly, in the market crash, her indulgent father loses all he had, and his family is faced with the necessity of a simpler method of living. At this juncture a letter is received from an eccentric relative in Colorado, who offers the girl a home on what seems to be impossible conditions. After much consideration Cousin Columbine's offer is accepted, and Nancy and Jack arrive at Pine Ridge. They are met at the railway station by Columbine Nelson, who in turn introduces Mark and Matthew Adams, two neighbors of Aunt Columbine, and the party set out for Pine Ridge, which village causes dismay to both Nancy and Jack because of its dilapidated appearance and general lack of poverty.

No Go On With The Story

CHAPTER VI.—Continued

As the car moved forward even Jack was dumb. They passed a filling station—a grocery—the post office and drug store—a ramshackle place marked "Restaurant" at which Nancy shuddered—a two-story hotel, its narrow porch hugging the dusty road as if it had no use, and in this vicinity to afford a lawn.

"But there's Cousin Columbine's estate," thought Nancy, grasping at this straw. "It can't be near these awful places. Perhaps there's a side street or—"

No! Mark was steering the car between two sagging gate posts. Nancy stared ahead. Was this the boasted family mansion—this hideous frame house with peeling mustard-colored paint and a pretentious tower at one corner? A wave of rebellion swept through the girl; and something curious seemed to be happening to her ears. She raised her hands to press against them, but heard Cousin Columbine say quickly:

"Ears popping? That's only altitude, my dear. We're nearly nine thousand feet above the sea, and on almost the very spot where I was born. Father built this house after he struck silver at Leadville in '78. As you see, it's in need of a coat of paint; but it needed something else a great deal more so the paint must wait a year or two. Stop at the side door, Mark, or Matthew's likely to bump into us. Aurora! Aurora Tubbs, where are you? Come out at once and meet my relatives. Well, Nancy," (she turned, her lined face beaming with happy pride), "what do you think of it? Does the Nelson mansion come up to your expectations?"

CHAPTER VII.

"... And all that saved me," wrote Nancy in her first letter home,

QUIVERING NERVES

"When you are just on edge . . . when you can't stand the children's noise . . . when everything you do is a burden . . . when you are irritable and blue . . . try Lydia E. Pinkham's Vegetable Compound, 98 out of 100 women report benefit."

It will give you just the extra energy you need. Life will seem worth living again. Don't endure another day without the help this medicine can give. Get a bottle from your druggist today.

Lydia E. Pinkham's
VEGETABLE COMPOUND

"It's not the cutting I mind, Miss Columbine," Aurora corrected, appearing through one door as the boys came in another, "but seeing it disappear so—so rapidly. You move the family Bible, Matthew Adam, and I'll set it right here on the centre table. It's a handsome cake, I think you'll all agree. Shall I do the cutting, Miss Columbine? I declare, it seems almost a pity."

"What do you think that cake is for, Aurora?" snapped Miss Columbine. "A parlor ornament? [Nancy smiled; though the phrase sounded unpleasantly familiar.] 'Til cut the thing myself, or these young folks will go hungry. Give me that knife, and shut your eyes if you can't bear to look upon such desecration."

"You don't need to cut 'em quite so thick," remonstrated the anxious woman, hovering near. "That's a four-layer cake, Miss Columbine, and a wedge two inches at the widest part's enough for any one. Those Adam boys" (she spoke as if the young men were not present) "have got fierce appetites when they go places, which is no wonder because their mother's not what you'd call a natural cook and owns to it herself, so there's no occasion for hard feelings. If Nancy eats that big wedge now, Miss Columbine, she won't have any appetite for supper."

"Oh, leave us be!" returned the older woman with impatience. "Leave us be! Here's your piece, Matthew, and don't drop frosting on the carpet. Stand close to the stove, all of you, and let the crumbs fall into the coal hod. And be sure to tell Aurora how good it is. That's why she's hanging round the door."

"It's great!" grinned Jack, at which Aurora beamed.

"It's simply marvellous!" said Nancy. The smile widened; while Mark Adam, an appreciative hand upon his stomach, murmured: "It's superb, Aurora. I warn you now, Miss Columbine, when I get married I aim to steal your cook."

"Wouldn't it be better to marry the cook herself and keep her in the family?" asked Matthew solemnly. This suggestion, coming from a hitherto silent and obviously bashful young man, was not short of amazing. Nancy glanced at Matthew with new interest; but Aurora bristled.

"And me, married to Victor Tubbs for twenty years? You should be ashamed, Matthew Adam. I don't believe in divorce; and I wouldn't marry your brother if I was a widow woman and he the only male relative in Pine Ridge. He's got a fickle nature, Mark Adam has, and I've always said, give me a faithful man or none at all. Help yourself to another slice, Matthew, if you're so hungry you have to lick the frosting off your fingers. And then you'd better be starting along home. These young folks will want to begin unpacking; and if you've got some good, thick cotton stockings, Nancy, I advise you getting into them double quick. Did you travel all the way from Massachusetts in that dress? It looks real fresh. If you'll give me your trunk key I'd admire to unpack for you."

"No doubt you would," spoke up Cousin Columbine, "but it's high time you were thinking about our supper, Aurora. Better take more cake to munch on the way home, boys; and give me a couple of dollars that I owe you."

"What for?" asked Mark, puzzled eyes on the proffered money. "For carling those trunks, and us, you donkey," she replied. "Great thundering prairie dogs!" exploded Mark. "Do you take us for a pair of gyms, Miss Columbine? Come on, Matt, we better get going. The lady wants to pay us for a little matter of lifting trunks!"

"The cake was pay enough, Miss Columbine," Matthew assured her with a shy smile. "We wouldn't think of taking any money. We— we must run along now or we won't get home in time to milk. Good-night—er—good-night, everybody," he added, and hurrying to escape, collided with Aurora at the door.

This caused still further confusion, the young man apologizing, his face scarlet; and Aurora demanding to know why he didn't look where he was going. "Land knows I'm not so small he had to miss me in the landscape," she complained as Matthew vanished, his ears pink with embarrassment, a wedge of the precious cake in hand. "If that's a third slice of cake you're cutting for yourself, Mark Adam, you'd better go easy on your supper or I won't be accountable for how you'll feel come midnight. That's a rich cake; richer a common because of company. If you don't hurry Matthew will get home first with all the news."

"You sure do speed the parting

for BITES

Insect, snake, or animal
bites, make it plenty
soothe, heal and cleanse.
Draws out the poison!

MINARD'S

"KING OF PAIN"

LINIMENT

guest, Aurora," he commented, "but don't you worry about that news. I'll overtake poor Matt before that cruel blush has had time to subside. Good-night, Miss Columbine. The cake was bully."

There was surely nothing about this young man, thought Nancy, as he extended a friendly hand to all of them (not omitting Aurora); lifted his third slice of cake from the platter, and said: "I'll drop in tomorrow and see if you've got acclimated."

To all appearances he was addressing Jack; but his eyes were on Nancy; and Aurora burst out as the door closed: "I warn you straight off, Nancy Nelson, that you must take anything Mark Adam says to you with a grain of salt. He's as unreliable as an April snow storm; and has broken more Pine Ridge hearts than any one on record up to date. There's an innocent look about you that makes me tremble, and I feel it my duty—"

"Oh, hush up!" commanded Cousin Columbine, while Jack found sudden interest in the landscape. So Nancy looked innocent! That was a good one! He'd have to write that to Aunt Judy. And wasn't it distinctly understood that there were to be no boy friends? It was mighty queer about Cousin Columbine, mused the boy, still at the window. She was no more what you'd expect from her letter than—than Nancy was like Aurora Tubbs! There was certainly something to explain here, and he wheeled about at a crisp command from this surprising relative.

"Wake up, Jack. Time enough to get acquainted with Pike's Peak after your rooms. I want to show you your settings before it gets too dark. Bring those bags along and we'll go right up. I dare say you're used to electric lights; but lamps and candles are all I can provide you with. Bring your own coat, Nancy. It can hang in the entry, though it's cold here and will be till next spring. The stairs are steep; but high ceilings were stylish when Father built the mansion, and he wanted the best. There! This is the tower room, my dear, and I hope you'll like it. There isn't a finer view for miles around."

However prejudiced Columbine Nelson might be as to the value of her property, she did not overestimate the beauty of her view. Even in the fast deepening twilight, Pike's Peak stood out gloriously clear against the sky.

(To Be Continued)

Opening Rubber Factory

One of the newest industrial plants in San Francisco is being opened at the foot of the ancient mountains of Ararat. It will produce synthetic rubber, and has been under construction for three years. One unit has started operations. It is estimated that \$240,000 will be spent in further construction this year.

Unlucky Sports Fan

Sammy Hill is just about the busiest bootblack in San Francisco—and the saddest. He bet 2,345 shoe shines at odds of 25-to-1 that Max Baer would beat James Braddock in their heavyweight fight. Now the successful Braddock winners are collecting with a vengeance.

Partial unemployment in France is still large.

Restrictions Were Lifted

British Soldier Allowed Out Of Detention Barracks For His Wedding

Army history was made at Aldershot, England, when a young gunner in the Royal Artillery was let out of detention barracks to marry a Welsh miner's daughter. Two hours later he returned from the church to the barracks to complete his sentence for a military offence.

Never before had the army authorities released a prisoner to enable him to be married. The authorities had been appealed to by a friend of the bride not to spoil the wedding plans, and it was only after much deliberation they agreed to allow the prisoner out for exactly two hours.

After the ceremony the smiling couple were allowed to spend 60 minutes together in the vestry, where a brief reception was held. Then the husband returned to detention and the bride to her place of occupation.

Newspaper Advertising

Has Great Advantage Over Other Forms States Premier Pattullo

"Newspaper advertising has tremendous advantages over other forms of advertising," Premier T. D. Pattullo stated in connection with the Dominion-wide advertisements with which British Columbia presented its case for a changed relationship between province and Dominion.

"A newspaper advertisement," said the premier, "possesses stability and permanence. It can be studied at leisure, analyzed, and followed up intelligently by discussion. The printed word can not very well be controverted, and possibility of misconception is minimized."

"For public messages of importance that require careful study and cool analysis, nothing can supersede the press."

THE RHYMING OPTIMIST

By Aline Michaelis

YOUR IMMORTALITY

I do not hold your immortality is but a memory dwelling in my thought. Although by night and day your face I see. And know anew the joy your beauty brought. Nor could I be content, believing this, That in so small a sphere your soul must dwell. For you should go, released to taste all bliss Through unknown regions, starred with asphodel. If you live only in my heart and mind, In my poor life, so warped by pain and worse, When I go, too, your magic then would find. No other harbor in the universe! Your heritage or immortality Must be, past time and space, to wander free!

Diamond Well Guarded

Jonkher In Bullet Proof Case At American Museum

The \$1,000,000 Jonkher diamond is on display at the American Museum of History, but none of the 4,000 persons who saw it the first day attempted to steal it.

The diamond is in a bullet-proof glass case. Should anyone touch the case, it would instantly vanish into a vault. Guards who stood nearby practised sharpshooting before going on the job.

Plan Did Not Work

A customs officer at Alexandria stopped two men carrying a sack of kitchen rubbish from a ship. Eighteen chickens' heads were in the bag. The officer opened the bird's back and poured a quantity of opium from each. The two men were arrested.

DOUBLED UP WITH RHEUMATISM

Could Not Wash Himself Nor Brush His Hair

So bad was his rheumatism that his friends declared he would never work again. Although he is 70 years old, he proved they were wrong. Read what he says:

"I am seventy years of age. Last Christmas I was completely doubled up with rheumatism. I could not brush my hair nor wash myself. People said I should never work any more. I am working harder than a young man to-day. Thanks, many thanks, to Kruschen Salts, I take them in my tea, and I have recommended them to many. I could not get in or out of bed myself, nor sit up. But see me work now—12 hours sometimes. Kruschen Salts have done it."—G.J.

Rheumatic conditions are the result of an excess of uric acid in the body. Two of the ingredients of Kruschen Salts have the power of dissolving uric acid crystals. Other ingredients assist Nature to expel these dissolved crystals through the natural channel. In addition, there are still other salts in Kruschen which prevent food fermentation in the intestines, and thereby check the further accumulation not only of uric acid, but of other body poisons which undermine the health.

Little Helps For This Week

The ornament of a meek and quiet spirit which is in the sight of God of great price. 1 Peter 3:4.

Thy smiles: mind in us reveal Thy spirit's plenteous impart; Till all my spotless life shall tell The abundance of a loving heart. —Chas. Wesley

Holiness appears to be to make the soul like a garden of God with all manner of pleasant flowers, that is all pleasant, delightful and undisturbed; enjoying a sweet calm and the gentle life-giving beams of the sun. The soul of a true christian appears to be a little white flower like we see in the spring of the year; low and humble on the ground, rejoicing as it were in a calm rapience, diffusing around a sweet fragrance, standing peacefully and lovingly in the midst of other flowers round about, all in like manner drinking in the beams of the sun.—Jonathan Edwards.

New Soil Laboratory

Wind Tunnel Is To Be Constructed At Swift Current

Construction of a wind tunnel for conducting soil drift experiments at the Dominion farm in Swift Current, Sask., will be undertaken this year.

Such equipment will be a part of a new soil laboratory to be erected at the farm at a total cost of some \$25,000, including equipment. It will be used to study the effect of wind currents on certain types of soil under different methods of cultivation in a similar manner of that employed by the research council in the study of aeronautics, for testing new wing constructions.

Forbid Hypnotism Shows

Roumania Claims They Are Dangerous To Public Health

The Roumanian department of public health has issued a strict order prohibiting all hypnotism and telepathy public performances, as well as all moving pictures and plays dealing with these subjects. It is explained in the order that such performances present a great danger to public health and that numerous cases have recently been reported where people suffered serious nervous shocks by witnessing hypnotism and telepathy demonstrations.

Abandoned gold and silver mines in Mexico are being reopened.

Save "LEFT-OVERS" with

Applegate's Presto PACK WAXED TISSUE

MORE CONVENIENT TO USE . . .

Just hang a package in your kitchen. You'll be delighted with its convenience . . . for, with one hand, you can easily extract a single sheet at a time leaving the other hand free to hold the "left-overs" being wrapped.

Warehouses At Calgary, Edmonton, Regina and Winnipeg

Main Street

Miss Elsie Allen has been having a few holidays this week.

Mr. Jas. Hedley is now the owner of a 1935 model Chevrolet sedan.

Mrs. E. F. Kemp spent Monday and Tuesday of this week in Edmonton.

Messrs. Ted Haase and F. Wiese are taking in the Calgary stampede this week.

Mr. John Ostad was confined to his home through illness on Wednesday, July 10th.

Mr. Wm. Milburn started for Toronto on Thursday, July 4th, for a short holiday.

Mr. and Mrs. S. M. Brown and daughter are having a few holidays in Hardisty.

Mr. W. Masson attended Mr. Aberhart's meeting in Vermilion on Wednesday, July 10th.

Mr. Carl Soneff is filling the position of extra gang foreman on the C.N.R. this summer.

Mr. and Mrs. T. Saunders and sons Ross and Wilfred are away to Vancouver, B.C., on a holiday trip.

Mr. Johnstone who was formerly employed at Wainwright has been engaged as mechanic by Mr. Ostad.

The Irma Legion dance following their sports program and Mr. Kiefer's talkie show was well attended and thoroughly enjoyed.

The Anglican people of the Irma district have constructed a parish hall on Mr. Yeend's property on the west side of town.

Mrs. E. Mills and daughter of Edmonton arrived on Wednesday for a few holidays with her parents, Mr. and Mrs. R. D. Smallwood.

Mr. and Mrs. Chas. Milne and daughter motored to Coronation on Saturday, July 6th, to visit relatives and friends during Mr. Milne's holidays.

The result of the vote of the proprietary electors in division 4 of M.D. Battle River on Saturday, July 6th, on the proposed herd bylaw was 30 for and 13 against.

Mr. and Mrs. Roscoe Frye have arrived home again after spending the past three weeks in Edmonton, where Mrs. Frye underwent a very serious operation for ingrowing toxic goitre. We are pleased to report that Mrs. Frye is recovering very nicely.

SPORT PEEPS

The Oldtimer was recalling a baseball game at Brandon some 30 years ago. The result was to determine the champions of Manitoba. The excitement ran high, for the score was 1-0 against Brandon in the ninth when they came to bat. With a man on third and on first, the batter lay down a bunt, which turned out to be a home run. It is claimed that such a result is never known to have occurred again in any reported game. The ball could not be found, for it ran down a gopher hole. That was the finish.

Most of the world had radios tuned to the broadcast last Saturday to hear the descriptive play of the match between the great women tennis players Helen Jacobs and Helen Wills Moody. The finish was most dramatic, for Miss Jacobs had the score 5-2 in her favor, only to lose out when her opponent won five games in succession. This contest excited just as much interest everywhere as did the game between Fred Perry and the great German player for the men's crown.

The racing pigeons which are frequently released by Mr. J. L. Dods just after arrival of the morning train from Edmonton, are real beauties. Records show these birds travel at wonderful speed, covering the distance between Viking and Edmonton at 40 miles per hour. You will find it worth while to get a peep at these beautiful birds.

It is rather a surprise to see the number of negroes now in the line in track athletics and boxing. Eugene Peacock, a 20-year-old, beat Metcalf known as the "fastest human" covering the 100 metres in the world record time of 10.2 seconds. Then Peacock jumped 20 ft. 3 ins, to take another first place. Those dark-skinned boys evidently have lots of pep.

STEVENS FORMS NEW FEDERAL PARTY

Ottawa, July 8.—A new political party in Canada had its birth over the week-end, to be led by Hon. H.H. Stevens, former minister of trade and commerce in the Bennett government.

A name has not yet been chosen, but will be shortly, and at the same time a manifesto setting forth its aims and ambitions will be issued. The announcement was made by Mr. Stevens to parliamentary correspondents Sunday afternoon. He said the objective is to have a candidate in every constituency, running under the colors of this new political orientation.

The movement has long been mooted but it came to a head only on Friday in Hamilton. That was the place of a meeting of a "provisional executive" consisting of Warren Cook of Toronto, Thomas Lison of Hamilton and Thomas V. Bell of Montreal.

The Canada Year Book 1934-35

The publication of the 1934-35 edition of the Canada Year Book is announced by the General Statistics Branch of the Dominion Bureau of Statistics. The Canada Year Book is the official statistical annual of the country and contains a thoroughly up-to-date account of the natural resources of the dominion and their development, the history of the country, its institutions, its geography, the different branches of production, trade, transportation, finance, education, etc., in brief, a comprehensive study within the limits of a single volume of the social and economic condition of the Dominion. This new edition has been thoroughly revised throughout and includes in all its chapters the latest information available up to the date of going to press.

The 1934-35 Canada Year Book extends to over 1,250 pages, dealing with every phase of the national life and more especially with those susceptible of statistical measurement. Attention may be specially directed to the statistical summary of the progress of Canada included in the introductory matter and giving a picture in figures of the remarkable progress which the country has made since the first census of the Dominion was taken in 1871, sixty-four years ago.

The volume is illustrated by many maps and diagrams and the latest available data are everywhere included. Immigration and trade statistics for the fiscal year 1934-35 and dairying statistics, which was not possible to include in Chapter VIII when this was being printed, will be found in the Appendices.

Owing to the urgent need for economy in the distribution of Government publications, it has become necessary to make a charge to all individuals receiving the Canada Year Book. Persons requiring the Year Book may obtain it from the King's Printer, Ottawa, at the nominal price of \$1.50, which covers merely the cost of paper, printing and binding. By a special concession, ministers of religion, bona-fide students and school teachers may obtain copies at the nominal price of 50c each.

The LETTER BOX

Although this column is open to our readers for the discussion of topics of public interest, we do not necessarily hold the opinions expressed, nor are we responsible for same.—Ed.

Mundare, Alberta, June 28, 1935.

Editor, Irma Times.

In reading the many and varied articles one finds today in the vast assortment of dailies, weeklies, monthlies and other periodicals at hand, and particularly the would-be explanations of the causes of, and cures for, the so-called economic depression of our world magnitudes of political, trade and other distresses, one is bound to conclude that what people are suffering from is not an economic depression, but an intellectual depression.

There seems little doubt but that the intelligence quotient of those people generally regarding themselves as the more civilized peoples, is at its lowest ebb for many, many decades back. The proof of this is all too near hand.

Those who over 2000 years ago inhabited the approximate area of present-day Italy would shudder in remorse, could they see as we see, the whole Italian people to a man literally bending low their bodies and minds before a single human—every vestige of democracy and individuality wiped from the face of that historic and ancient home of one of the few early civilizations.

When one turns to some of those exquisite and undying lines of their immortal poet and then glances but briefly on the Italy of intellectual morons presently occupying that land, one is immediately and forcibly thrown, yes—even catapulted, to the admission that even the lower tribes should have done better and couldn't have done much worse.

Then turn to Germany and an almost identical picture presents itself. Here we have a people that stood at the very top of science, literature, art, culture and the other noble things of life, subjected even domestically in word and deed and thought, to the political whims of a lone bully who hasn't even Polish, much less culture or learning.

The German people, their individuality (which after all is all there is in life) blotted out; their womanhood converted into galleys and their manhood into a military machine to inflict savagery on others, are high beyond recognition.

These situations are unbelievable almost, to the student of the history of either of these peoples yet there they are—actualities of the very essence of retrogression—in the 20th century.

Cross over the Saar valley to France and one finds a people with a new Cabinet at every sunrise—some of the new ministers actually doing get to the point of being sworn in, much less to a Council meeting, ere they are dismissed. No possible cultural progress can find root in such

tumult or national brawling. But does one find a much better state of affairs in our neighbor to the south? Not much! Almost three years have been spent in concealing, enacting and annihilating, the N.R.A. which never had within it a sound element on which to base a proceeding upon, to individual, national or international security. The N.R.A. was and is, the embodiment of dangerous mob emotions into legislation of unsound calibre and the American citizen may well give thanks to the U. S. Supreme Court for its timely judgment. At best it was but a scheme to eliminate the competition in life, which when removed removes automatically and simultaneously life itself.

The I. Q. in these and many other countries, it must be conceded, is being sadly lowered. What will the result be? No one could possibly give the answer, yet they will inevitably be, whatever else, very damnable indeed. The individuality in life among humans must be cultivated and not obliterated. Any obliteration of human life is too much, but doing it on a National scale would appear suicidal beyond epicurean description.

Of course it is quite unnecessary to go beyond the bounds of our country for examples aplenty of depletion in the I. Q. That which now is known as Alberta was quite a worthwhile place in the past, occupied by the Red men. Nor would it be unfair to infer from such meagre records as we have, that the I. Q. of the average Canadian degree too. Today what is the position from the viewpoint of intelligence? Whether or not we have with us an economic depression may be debatable but there wouldn't appear to be much debating space on the question of the presence of a great intellectual depression.

From beyond our boundaries we are looked upon, and with plenty of justification too, as the political, economic, and intelligence "comic strip" of the continent. We appear to be the Ches. and Wal. Uncle Filbert and Amos Hazel all in one, the whole Canadian Provincial family.

Albertans appear jealous of their family nut-tree and persistent in holding the place in the provincial Falstaffian records of Canada—even unto the point of importation of nuts and nut-crackers.

We hire Hatfields to make vain-loudness as it seems, and actually pay good money for a monkey-man climbing up scaffolds (minus the noose that ought to have swung from the ceiling) to get secret gasses at passing clouds. All of which reminds us Italy hired for good money this same Hatfield for the selfsame purpose.

Doubtless due to the same high-powered I. Q. that brought Hatfield here, we find ourselves in the same Sapirio large sums of money to arrange the pooling of our wheat; so now we have the greatest pool of wheat in history.

In the press, but a day or so ago, we note that one of our government ministers has announced that he will increase the accommodation at the eleemosynaries in Oliver as well as in Red Deer, Alberta. It would appear extremely doubtful if any one is at all likely to dispute the need. In truth he may have been speaking one word for the other fellow and two for himself.

Last but not least of Alberta's bids for (echo) come's fame is our newly-found cross between Aime Semple McPherson and "Honey" Long—a political, a darn indeed! From deep within our hearts we can sincerely wish that the moment of birth of this hymn, more fitting than he is aware—"Oh God our help in Ages past!"

Our contention is that the I. Q. of the so-called civilization is lowering. Let us not confuse academic education with intelligence quotient. The child the moment of birth has an intelligence quotient but no academic or other education. Of course it would be difficult to measure the I. Q. of the newly born babe. Doubtless, the I. Q. of the child normally is in direct proportion to the education he receives at the moment of birth and back. Today people suffer greatly from mob emotions; truly a very sorry malady. Reason, logic, analytical science, all new yet and other theories, seem most conspicuous by their absence.

The total result appears beyond question to be an intellectual depression which is not only largely responsible for the present economic depression, but a hundred-fold more unfortunate.

—Harry A. White.

TENDERS WANTED

Tenders wanted for kalsomining Crescent Hill school, to be in the hands of the secretary not later than July 25th. Lowest or any tender not necessarily accepted.

W. T. STEELE, Secretary, 5-12c Irma, Alberta.

NOTICE

To Residents of Kinsella No. 424

A warning re the matter of allowing bulls to run at large in this municipality was issued a short time ago. This has evidently been ignored. The Council of the above M. D. are now issuing a warning to all those people who allow their bulls to run at large that unless these bulls are kept up and the owners thereof will be prosecuted. The co-operation of the people is requested but unless this is received the Council will take action after five days have elapsed from the publication of this warning.

B. H. GREEN, Sec.-Treas., Municipal District of Kinsella No. 424.

CAN IT BE DONE?

POLICE HELMET RADIO SET

COMPACT, LIGHT-WEIGHT RADIO SET FOR POLICEMEN ON FOOT, SPEAKER OF WHICH FITS IN HELMET AND MIDSET EQUIPMENT IN UPPER RIGHT-HAND POCKET, WHICH CAN BE TUNED IN WITH HEADQUARTERS. CAN IT BE DONE?

Do you think this idea is practical? Write Ray Gross in care of this newspaper.

Wheat Pool Meetings

Mr. Geo. Bennett, wheat pool director, will address public meetings at dates and places as follows: Fashendale school, north of Fabyan, July 15, 2 p.m.; July 16th, at 2 p.m.; Jarrold July 16th, 8 p.m.; Viking July 17th, 2 p.m., and Bruce on July 17th, at 8 p.m. Everybody invited to attend these meetings.

Liberal Radio Broadcasts

At 8.45 p.m. Each Monday

The time has been changed for the Liberal radio broadcasts and hereafter they will be given at 8.45 each Monday evening commencing July 8 over CICA Edmonton and CFRC Calgary. This change has been made necessary by reason of the fact that CFRN which was previously being used, did not reach the country points very satisfactorily.

NOTICE!

To the Ratepayers of the M. D. of Kinsella, No. 424

TAKE NOTICE that there has been introduced into the Council of M. D. 424, a by-law for the purpose of obtaining Medical and Surgical treatment for the residents of the said District, and further take notice that unless a petition signed by at least 15 per cent of the proprietary electors of the said M. D. is placed in the hands of the secretary of the M. D. within 30 days from the publication of this notice, the Council will proceed to pass the said by-law.

By-law No. 35 Being a by-law for the purpose of obtaining Medical and Surgical treatment for the residents of the M. D. of Kinsella No. 424.

Under the authority of section 157 of the M. D. Act and amendments thereto, the Council of the Municipal District of Kinsella No. 424, enacts as follows:

The Council of the M. D. 424 may for the purpose of giving Medical and Surgical treatment to residents of the said District, enter into an agreement with a Doctor or Doctors for the said treatment and the amount so expended under such scheme shall not be in excess of three thousand (\$3000.00) dollars per year, the said amount to be made up by a levy on the assessed valuation of the property of the Municipal District.

It is estimated by the Council that this will mean an increase in the taxation of from 2 to 3 mills.

The Doctors will take care of contagious diseases, with the exception of an epidemic.

The Doctors will take care of hired men and hired girls, who have a residence of three months in the M. D.

The Doctors will take care of residents who are not ratepayers, and also renters.

Any further information may be obtained from the secretary.

BLAKE H. GREEN, Sec.-Treas., M. D. of Kinsella, No. 424. Sedgewick, June 24, 1935. 3-10; 5-12
